## BEST PAKAT of The Month!

Finding: During alongside at Lantana base, I saw marine crew sitting near the mooring rope at the time the vessel not finish alongside & the cause is strong current.

Action taken: I told him to get out from the zone because the mooring line is in tension. It is very dangerous for him if some line is broken and striking against him. He agreed and walked away.

The Pakat of the month has also been chosen as best pakat during the Marine Network Business Partners meeting held in SMR on the 7<sup>th</sup> May 2013.

## ISO Awareness Training

It was indeed privileged for us (Sufia, Rowena, Irene, Nisa, Royce, MD Joffiry) to be part of an ISO Awareness training course held in Lantana Miri on the 16<sup>th</sup> of May 2013. It was a good experience with much knowledge absorbed for future references and improvements.

## Team Building & Family Day

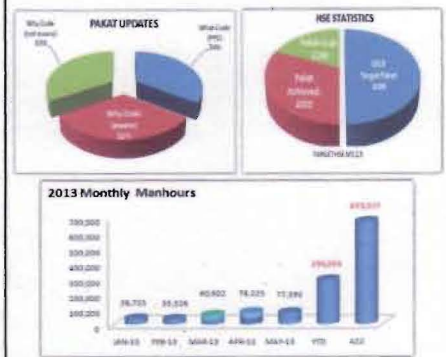

31/05/2013- Team Building was all about working together as a team. That's what we did for past three days. On the 31st May 2013. Our very own Company Lantana held a team building activity for all office staffs at the Borneo rainforest resort. It was an incredible trip for staffs. We were so excited as Lantana Miri staffs welcomed us and joined the team building as well. Getting to know each other and building up camaraderie and teamwork. Playing games, flying fox, water Polo are just some of the activities which bring us together closer to being not just colleagues but as family. An event to be hold as best memories to last. Looking forward to more ahead in the near future.
