

LSSB NEWSLETTER

In a blink of an eye, we have reached the seventh month of the year. I am continually seeing improvements in Lantana. We grow as a team and as a family. Keep up the good work everyone. I would like to take this opportunity to wish all staff ashore and onboard SELAMAT BERPUASA to all Muslims.

"Success is how high you bounce when you hit bottom."

His Majesty's 67th Birthday

To mark the 67th birthday of His Majesty the Sultan and Yang Di-Pertuan of Brunei Darussalam, in lieu of usual celebratory activities due to the observation of Ramadhan, special prayers were held throughout the country. The regular celebrations that enliven the capital are postponed to August, September and October. I wish His Majesty the best, and may he be blessed with happiness and (continue) making the country prosperous. His Majesty the Sultan and Yang Di-Pertuan of Brunei Darussalam!

Career Road Show

This event took place on the 4th July. The purpose of the Career Road Show is to launch "Energy Industry Competency Framework" (EICF). The purpose of the EICF is to promote careers of deck and engine rating, which is one of many training programs under the EICF. It is a joint collaboration of Swiber, SMR, BGC, Subtec Laut and many more under the Marine Department.

Coaching — SK Line 10

On the 29th July 2013, Stanley Ling (SQE) conducted a coaching of Risk Assessment for SK Line 10. He briefed the crew on the hazards and safety precautions to take in case of danger. He supplied them with a Job Hazard Analysis file.

Hoisting the Brunei Flag

Hoisting the giant national flag is an important mechanism through which we portray our love, pride and patriotic spirit.

On the 1st July, LANTANA put up the Brunei flag to commemorate the birthday of His Majesty's 67th birthday with the help of Donnie, Kajan, Harun and Heri. The flag will remain hoisted till the end of September.

Action Item Incident

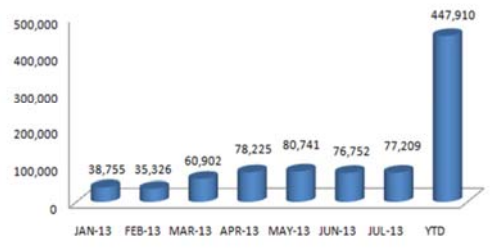

On the 19th April 2013, a LCQ mechanic sustained a 1cm laceration of left index finger due to the hammer head of the wooden hammer being loose, hence causing the finger injury. The lesson learnt from this injury is to phase out the wooden hammers and replace it with certified metal or silicon hammers.

Visit to PMSB Sibul

On the 7th May, Marvin represented Lantana and attended the Completion Convocation & Marine Trainee Maritime Training Centre in Pelita Maslaut in Sibul. This event was organized and completed by Y B Datu Haji Len Talif Salleh ADUN N35 Belawai.

2013 Monthly Manhours

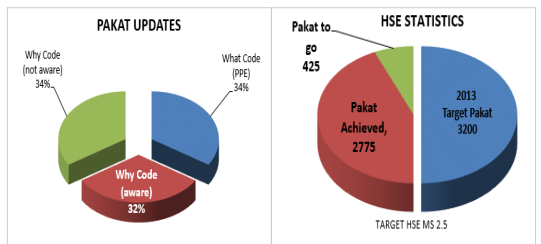

HSE Plan 2013 Review Q2

HSE Plan 2013 Review – Quarter 2 was held in SMR last July 4th, 2013. It's aim is to oversee the status on how are we performing so far as per the plan. SMR/4 and contract holders partake in the review and confer their insights with the standing.

BEST PAKAT OF THE MONTH

When we are in CPRP-03 to pick up passenger, one passenger tried to step on the tire fender even though he is aware of the banging of the boat landing of the side platform and tire fender of the boat. I stopped him first and advised not to step on the tire fenders, and gave instruction to hold tight with two hands above his head to avoid fall down into water and to prevent any injuries which can cause fatality. After the passenger transfer was successfully done. I continued my intervention and explained thoroughly to all passengers why we are doing this intervention. In every passenger transfer the team main objective is to transfer them safely. Agreed. — Ronilo Cay Rino

KPI Review

The KPI Review — Quarter 2 took place on the 22nd July, 2013. It was held in our very own conference room. It was a review of Plan made by SMR. It main goal is to set a target and to achieve it. Congratulations to LANTANA for achieving some of the goals. Although the achievement was not as expected, but still the results were satisfied.
