## BEST PAKAT OF THE MONTH

At the traffic light, I saw a lorry heavy-loaded with timber logs which was not safely/adequately secured, looked like going to fall off anytime. This is very dangerous for other road users and might cause accidents/casualties. I informed the lorry driver of this dangerous situation but he told me he that he is just following orders from his boss, so there is nothing much he could do. He said his boss is a big shot, so I better shut up. Later I complained to the authority and they said "Ok we will look into it since you complained already". Addressed and authorities noted. — Wong Loan Seng
